Ready for the next level?

## IBM Watson IoT Platform Journey

The screenshot shows the 'Browse Devices' interface of the IBM Watson IoT Platform. The top navigation bar includes links for 'Browse', 'Action', 'Device Types', and 'Interfaces'. A user profile icon and email address are visible in the top right corner. Below the navigation bar, there's a sidebar with various icons representing different system components. The main heading is 'Browse Devices', followed by two tabs: 'All Devices' (selected) and 'Diagnose'. A descriptive paragraph states that the table below summarizes all added devices and can be filtered or searched. Below this, there's a search bar labeled 'Search by Device ID'. To the right of the search bar, there's a 'Device Simulator' toggle switch and two filter icons. The central part of the screen displays a table with columns: 'Device ID', 'Status', 'Device Type', 'Class ID', and 'Date Added'. Two rows of device data are shown, both with a status of 'Disconnected'. At the bottom, there's pagination information indicating 'Items per page: 50' and '1 of 1 page'.

## Browse Devices

This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API.

Search by Device ID

Device Simulator ☐

	Device ID	Status	Device Type	Class ID	Date Added
>	123	Disconnected	gas	Device	Nov 16, 2022 1:44 PM
>	123	Disconnected	ibm	Device	Nov 16, 2022 1:30 PM

Items per page: 50 | 1 of 1 page
